Empowering individuals, families, and communities to improve their quality of life.
HRDI is a community-based behavioral health and human services organization. HRDI is a non-profit agency which was founded in 1974 by Dr. C. Vincent Bakeman and Mrs. Doris M. Lomax on the South Side of Chicago concerned with mental health and substance abuse problems plaguing their communities.
HRDI provides services in alcohol and substance abuse prevention and treatment, mental health, youth prevention, family services, community health, case management, alternative youth education, HIV/AIDS prevention and education, corrective services, and gambling prevention and education.

Our mission is to empower individuals, families, and communities to improve their quality of life and to influence public policy through the design and implementation of innovative, efficient, effective, and accountable behavioral health, social service, education, and economic development programs.

Our vision is to set the standard for a comprehensive global system of behavioral health care and community services that utilizes the highest degree of excellence and best practices.
HRDI Alabama: Developmental Disabilities Program, 4111 Wall St., Montgomery, AL 36106 (334) 396-9551

HRDI was invited to Alabama in November 2003 to provide its services for individuals with substance abuse problems, mental illness, behavioral challenges, developmental disabilities, and intellectual disabilities.
HRDI Alabama’s Developmental Disabilities Programs consists of 13 licensed and certified community-based group homes with the capacity to serve 39 adults with developmental and intellectual disabilities. Each home provides 24-hour supervision, personal assistance, and guidance in daily living. A collaborative relationship is maintained with community partners to ensure the comprehensive needs of the individuals are met.
HRDI DIVISION FOR ADDICTION TREATMENT
The HRDI Division for Addiction Treatment focuses on improving the quality of life for each individual it treats through self-sufficiency and substance-free living. Programs offered through this division have customized residential and outpatient treatment services for men and women, youth, single mothers, and individuals with HIV/AIDS. Women and children receive community-based personalized and comprehensive treatment, including early screening and identification of infant/child behavioral and developmental issues, and assessment and treatment-planning interventions. In accordance with our mission of addressing mental illness, HRDI provides treatment for clients with dual diagnosis. The clients’ disorders are treated simultaneously as part of the same program, efficiently integrating mental health and substance abuse treatment, eliminating fragmentation of client services, and reducing gaps that negate treatment effectiveness. Selected HRDI programs are licensed by the Illinois Division of Alcohol and Substance Abuse (DASA), and accredited by COA and CARF. All DASA programs accept referrals from service providers, as well as those who wish to refer themselves or a loved one.
HRDI DIVISION FOR
ADDITION TREATMENT

340 E. 51st Street
Chicago, IL 60615
(312) 966-0333
HRDI’s Division of Mental Health provides the highest quality of humanistic care to individuals with mental illness or emotional instability. The services and care offered by this very first division of HRDI are geared toward the improvement of clients’ quality of life by promoting programs that focus first and foremost on the development of a sense of self and well-being, the ability to relate with other people in their social network, coping skills, self-actualization, and decision-making. Once the sense of self has been mastered, clients are then empowered with the support and skills they need to ultimately live independently and harmoniously in their own communities.
Adult Outpatient Treatment Services
Adult Outpatient Treatment Services empowers individuals with mental illness (and their families) by developing self-sufficiency and addressing behavioral/emotional disorders. Services include assertive community treatment, psychosocial rehabilitation, intensive stabilization, and case management.

(773) 660-4630

Williams Recovery Drop In Center
HRDI has developed a Recovery Drop-In Center on the south side where individuals who have experienced mental illnesses create and operate an environment of support, socialization, self-direction and empowerment.

1757 E. 75th Street
Chicago, IL. 60649
(773) 363-1132
City of Chicago
Psychiatric Services
For Unfunded Adults within the City of Chicago HRDI is able to provide psychiatric evaluations at no cost to participants. The psychiatrist is able to administer psychotropic medication, provide monitoring and evaluate target symptom response, assess and address adverse effects and train the client or the client’s family or guardian to administer medications independently of the organization. Clients are eligible to receive mental health assessments, treatment planning services, case management services, psychiatric evaluations and medication administration and monitoring.

33 E. 114th Street Chicago, IL 60628 (773) 660-4630

South East
Mental Health Center
The new South East Mental Health Center of HRDI offers outpatient and home based therapeutic services and supports for adults and families necessary to assist clients to achieve and maintain rehabilitative, resiliency and recovery goals. Adult clients are able to attend clinical and psychosocial rehabilitative groups, obtain individual and family therapy and receive medication administration, monitoring and training from an adult certified psychiatrist.

1749 E. 75th Street Chicago, IL. 60649 (773) 363-1110
HRDI DIVISION
COMMUNITY HEALTH

HRDI’s Division of Community Health strives to build a successful working collaboration with individuals and community partners, utilizing the shared objectives of promoting wellness and improving the health status of community residents. An element of the HRDI philosophy is that, in order to ensure the wellness of individuals, the agency must promote healthy lifestyles in the communities where individuals reside.

**Family Case Management**
Medical case management and psychosocial services to pregnant women and their children -- up until one year of age -- from Far South Side communities that have high incidences of infant mortality.

**8151 S. Western Ave. Chicago, IL 60620**
